

Hello, everyone. Let me introduce myself.  
 My name is Asahi Daichi.  
 Daichi is my given name and Asahi is my family name.  
 In Japan, we usually say our family name first.  
 I have one little sister. Her name is Tsuki.  
 I am twelve years old. Tsuki is eight years old.  
 I go to Lake View Junior High School. I am in the seventh grade.  
 I am good at running. I can run fast.  
 I am a member of the basketball team at school.  
 I enjoy playing basketball with my friends after school.  
 I like math and science. I don't like music.  
 Tsuki can play the piano very well, but I can't.  
 My father is a music teacher. Of course, he can play the piano, too.  
 My mother is an office worker. She is good at singing.

Round and round,  
 The earth goes around.  
 Spring, summer, fall and winter,  
 Round and round,  
 The earth goes around.

Round and round,  
 The earth spins around.  
 Morning, afternoon, evening and night,  
 Round and round,  
 The earth spins around.

7-8  
 What are you doing?  
 I'm getting up.  
 I'm studying at school.  
 I'm eating lunch.  
 I'm taking notes.  
 I'm having classes.  
 I'm taking a bath.  
 I'm going to bed.  
 At night, I am sleeping.

Hello, ladies and gentlemen:  
 I am the mayor of this city. My name is Asahi Daichi.  
 Please call me Mr. Mayor.  
 I am kind, intelligent, brave and sincere.  
 Today, I am very happy to introduce our city to you.  
 The name of the city is Sunflower.  
 The population of our city is 354,325.  
 There are two kindergartens, two elementary schools,  
 and one high school in this city. There is a library, a bank,  
 a post office, a fire station, a police station, two big supermarkets,  
 a hospital and a train station.  
 We are proud of our beautiful park in front of the library.  
 You are welcome to visit us any time.  
 Thank you.

Identify the person

What causes night and day?  
 The earth spins on its axis as it travels around the sun. The side of the earth facing the sun gets light and heat. We call this daytime. The other side of the earth is cool and dark, which is night. Earth's axis is tilted, so this causes different seasons.

(The sun, Earth, Moon, stars)  
 (light) (the earth) (day around the sun)
